Dear Ms. Ristich:

This letter is to compliment you on the outstanding DVD production prepared for our Executive Vice President, Steve Thompson. The video was shown to a crowd of about 75 people, and the room was filled with cheers and tears. Steve said it was one of the nicest presents he had ever received.

Many people commented on the professionalism of the video, and your unique ability to combine images with their perfect musical accompaniment. Also noted was your ability to take viewers from laughter to wistfulness and back to laughter—seamlessly.

From all the staff at The Trust for Public Land, thank you. I would be more than happy to act as a reference for future clients should you so desire.

Sincerely,

Deborah Love
Director
